

A TRAINED NURSE

After Years of Experience, Advises Women in
Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinician Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes: "I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would blot after eating and frequently become nauseated. I had an acrid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

The Rev. Dr. G. Glenn Atkins, of Burlington, is to hold a series of meetings in the Congregational church at

West Lebanon, N. H., October 23-27 each evening; meetings each afternoon for the young people.

SHOT IN THE THIGH

A. T. Davis Wounded at Hanover, N. H.

EUGENE GLEASON HELD

And Is Charged With the Shooting — The Two Men Were Very Unfriendly Over Family Affairs.

Hanover, N. H., Oct. 22.—A. T. Davis of this town is at the Mary Hitchcock Memorial hospital with a bullet hole in his thigh, and Eugene Gleason of Norwich, Vt., employed here as a painter, is under arrest, charged with assault with a dangerous weapon.

There has been family trouble between the two men for some time past and both were under bonds to keep the peace. Gleason married a Mrs. Clark about two years ago, and Davis married one of Mrs. Clark's daughters. The two families lived together here for a while, but familiarity seemed to breed contempt and after a while each family preferred the absence of the other.

Saturday Gleason and Davis met on West Wheelock street, and after a few words Gleason drew a revolver, shooting once, he says, into the ground. The other bullet entered Davis' thigh. He was removed to the hospital, after walking to Webb Waterman's, a few yards from the place he met Gleason.

Gleason, upon firing, went home to Norwich on the other side of the river. From there he returned with Sheriff Fitzgerald of Norwich, who delivered him over to Chief of Police John Snow of Hanover. Gleason accompanied Chief Snow willingly up the hill to Hanover, where he was put in the lockup to await the session of the police court on Monday. On his person Chief Snow found a revolver. The condition of Davis is not considered serious.

MOTHER KILLS SELF AND SON.

Turned on the Gas, Knelt and Awaited Death.

New York, Oct. 23.—Mentally deranged since the death of her husband a year ago, Caroline Dreher, 42 years old, undressed her son, Joseph, 13 years old, put him to bed, turned on the gas jet, pulled down the shades at the window, and knelt by the side of the bed and awaited for death Saturday in her home on Third avenue. Two hours later her son, Bernard,

How to Get Well.

Every organ of the body is directly connected with the brain by nerves. The nerve cells in the brain generate nerve force—power—and send it to the organ through these nerves, and this nerve-force gives life and action. The organs work perfectly when there is sufficient nerve power. Lack of nerve force weakens the action of an organ and it works imperfectly—becomes sick.

Two-thirds of all sickness is thus due to weak or deranged nerves; it is therefore advisable to take Dr. Miles' Restorative Nerve, because it makes nerve energy.

When you cure the nerves you remove the cause, and that's the way to get well.

"Dr. Miles' Restorative Nerve cured me of nervous prostration after every other effort had failed to give me relief. My trouble seemed to begin with a general loss of strength and a breaking down of the nervous system. I suffered from headache, constipation and fluttering or palpitation of the heart. My appetite failed and I was so nervous and restless that I could not sleep at night. My husband, who is a druggist, brought me a bottle of Nerve. It helped me from the start, and I continued using it until I had taken six bottles. My health was completely restored."

MRS. SILE M. MORRISHOUSE, North Adams, Mich.
Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
Miles Medical Co., Elkhart, Ind.

after pounding on the door of the apartment, burst in the door and found his mother and brother dead.

On a table was a note to an elder daughter, saying: "I have taken care of Joseph. You and Bernard can take care of yourselves."

MET HORRIBLE DEATH.

Elmer Prouty Killed in Saw Mill at Marlboro.

Brattleboro, Oct. 23.—Elmer Prouty, fireman and engineer in Melvin Dairymple's steam saw mill at Marlboro, was killed in a mysterious accident in the mill Friday afternoon. The power began to diminish, which caused the mill hands to make an investigation. They found Mr. Prouty with his head under a big drive wheel, which ran about two inches from the ground, and the big belt had literally shaved most of his head away. How he came in that position is not known, but it is supposed he attempted to jump through the belt as he had done before, and tripped. He was forty-three years old, and is survived by a wife and two sons.

RECEIVING NIAGARA CANADA PROBLEM

Geological Expert Appointed by the Waterways Commission to Make a Report as to the Cause.

Ottawa, Ont., Oct. 23.—J. C. R. Laflamme, former rector of Laval University and president of the Royal society of Canada, has been appointed by the international waterways commission as geological expert to make a report upon the receding of the Canadian side of Niagara Falls. It is said that the Canadian side has receded 300 feet during the past 80 years.

Members of the waterways commission left for Niagara Falls Saturday to begin this investigation.

RELIEF FOR LUMBERMEN.

Vermont Insurance Rate to Be Changed from 3½ to 2½ Per Cent.

Boston, Oct. 23.—The New England insurance exchange held a meeting here Saturday morning, over which President C. D. Palmer presided, when the Vermont committee introduced a motion to establish a minimum rate in Vermont of 2½ per cent, with 80 per cent co-insurance on lumber stored in piles in open fields without "exposure." At present the rate ranges on an average of about 3 to 3½ per cent, without co-insurance. The matter was referred to the executive committee in order that reports on the subject be secured from other state committees of the exchange, and have legislation adopted on this branch of the lumber industry, applying to all of the states within its jurisdiction. The subject is one of considerable importance to lumber dealers.

Bennington's Oldest Native.

Bennington, Vt., Oct. 23.—Melvin Wadsworth, so far as known the oldest man living that was born in this town, which has always been his home, was 92 years of age yesterday. Mr. Wadsworth has the distinction also of being the oldest member of the Odd Fellows fraternity, both in years of membership and age, that there is in the state. For five years he has been a member of the Gill Old Fellows' home in Ludlow.

Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then why not take it?—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine. We have no secret! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

INDICT ANARCHISTS.

Attempt to Assassinate Alfonso and Loubet Ends in Findings Against Five "Reds."

Paris, Oct. 23.—Indictments have been found against five Anarchists in connection with the throwing of a bomb, May 31 last, at a carriage containing King Alfonso and President Loubet in front of the opera.

The principal person accused is Avino, alias Ferras, who is indicted for the attempted assassination of the King and President and their escort. Avino has not yet been captured.

Charles Malato, who is known as a philosophic writer, and an Anarchist named Cassanel, are charged with complicity in the outrage, and with having explosives in their possession.

Vallino, a Spaniard, and Harvey, an Englishman, are indicted for having explosives in their possession.

To Offer Prize for Consumption Cure.

Paris, Oct. 23.—The French Parliament will be asked to offer a \$200,000 prize for a cure for consumption. The project has the approval of the government, and therefore its adoption is assured. This is the outgrowth of the discussions at the tuberculosis congress. It is expected that the prize will stimulate research in time for the result to be announced at the next tuberculosis congress, which is to be held in Washington.

Patents have recently been granted the following Vermonters: William C. Farnum, of Arlington; Charles T. Holmes, of Charlotte; John N. Judson, of South Stafford; John Middlebrook, of Barre; Manly E. Rawson, assignor of one-half to P. D. Rawson, of Jamaica.
